« Exotic fruit and a saline finish »

Delicious, easy to drink, fruity wines. And excellent value!
Tui... A cute little name that rolls off the tongue... and the affectionate name we have given to our little Provençal cypress that we love so much. The cypress is a magical tree for the Kennel family...the great 1,000-year-old cypress and its offspring that we have named Tui. It embodies permanence, renaissance, solidity, and the capacity to adapt.
